

OPTIMIZE AND ACCELERATE PROFESSIONAL-CLASS COLOUR

MP C2500e1/MP C3000e1
MP C3500e1/MP C4500e1

Integrating Fieri precision colour management into Rex-Rotary's advanced digital colour devices creates a breakthrough in professional colour. These Fieri powered devices deliver accelerated processing and precise control of colour intensive documents. They empower users requiring professional colour to produce sharp, high-quality output at up to 40 colour pages per minute (ppm). Fieri's innovative management tools help streamline your colour workflow by enabling variable data management.

This synergy of high-performance colour technologies makes sophisticated colour control, printing and management a must have for all professional colour users.

Rex-Rotary's unique approach, links people with knowledge and expertise, combining our wide experience of innovative, document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.

Production quality colour in the office

Outstanding image and colour control

For precise control of professional colour, these Fiery powered devices are the ideal choice. ColourWise Tools offer accurate quality calibration and consistent, flawless colour output for users of high-end business colour.

Superior workflow management

The Fiery utilities simplify your colour workflow management. They support administration across multiple devices and the variable data printing capability enables easy production of tailored or personalized mail-merge communications.

Faster job processing

Colour print jobs are produced faster thanks to the Fiery's high-speed processors and professional Postscript features.

Built for speed and high productivity

Users will enjoy enhanced colour productivity with Rex-Rotary's choice of Fiery powered devices. Produce impressive results quickly and easily with accelerated processing and rapid colour print speeds up to a maximum of 40 pages per minute (ppm).

Adding a professional finish

These versatile devices let you customize your documents with business-quality finishing options, including booklet, hole-punching and stapling. With the additional benefit of built-in double-sided printing, your documents will set new standards in professional output.

Outstanding Software and Services

Improving productivity, workflow efficiency and cost control is easy with Rex-Rotary. Designed to add value and ensure our devices operate seamlessly and reliably, we cover every aspect of your business from document management, network control and consultancy, to training and unrivalled support. For connected devices the intelligent way of working is @Remote. This embedded technology uses the Internet to automate administration of these Fiery powered devices, sending meter readings, service call and consumable notifications directly to Rex-Rotary via a secure connection.
